Afsluiting van de XVIde Noelanders Trophy

Clôture du XVIième Noelanders Trophy

Ende der Noelanders Trophy XVII

End of Noelanders Trophy XVII

Demonstrators

Taiga Urushibata (JP)

Taiga Urushibata grew up in the bonsai nursery Taisho-En Bonsai Garden of his father. A bonsai garden which is kept so clean that you could eat off the floor.

He has studied during six years with master Masahiko Kimura. Afterwards he joined his father in the bonsai studio and nursery.

In recent years he has become one of Japan's foremost young bonsai artists. He has given demonstrations and workshops in China, the USA and several European countries.

Koji Hiramatsu (JP)

Koji Hiramatsu belongs to the 4th generation of the owners of the Hiramatsu shunsho-en bonsai garden. He learned the art and science of bonsai from his father.

He is a specialist in shohin, but in his garden we can also find a magnificent collection of large bonsai like black pines. He is a member of the Japan Bonsai Cooperative and of the Japan Shohin Bonsai Cooperative. He is the managing director of the All Japan Shohin Bonsai Association, for which he is also an official demonstrator.

Koji Hiramatsu has given several demonstrations and workshops in the USA, India, China, Australia and also in Holland and France.

He was a headliner at the 7th World Bonsai Friendship Federation convention and at the Asia-Pacific Bonsai & Suiseki Convention and Exhibition in 2011 when it was held for the first time in Japan

He was the chairman of the Takamatsu bonsai convention in 2014.

Mauro Stemberger (IT)

Mauro Stemberger was fascinated by bonsai already at the age of fourteen. After following workshops with several European bonsai professionals he founded in 2005 the 'Italian Bonsai Dream', a group of bonsai enthusiasts to work and enjoy bonsai art.

He is a professional architect since 2006.

He has written several articles in the most important bonsai magazines. From 2008 till 2010 he was President of UBI (Italian Bonsai Association). In the most recent years Mauro was asked for demonstrations all over Europe (also by Bonsai Association Belgium) and in the USA, Mexico and Australia.

A lot of his work was on large yamadori conifers, but the front picture on this program book is an Alnus of his hands.
